

27 January 2024
Holocaust Memorial Day

Dear Dame Esther

On the occasion of Holocaust Memorial Day, we are writing as 'Nicky's children' to send you our love and support, and to express our deep admiration and thanks for the role you played in bringing our story to the attention of the world.

It has been wonderful to see such fulsome appreciation for the endeavours of Sir Nicholas Winton, Doreen Warriner, Trevor Chadwick and all those involved in our rescue as depicted in James Hawes' wonderful film, *One Life*. We were greatly impressed with how Sir Antony Hopkins beautifully captured the essence of Nicky, but also to see the recognition given to you for so sensitively sharing our story.

The herculean effort to organise the transports, persuade the officials to issue visas and to secure private sponsorship in such a short period of time against the backdrop of imminent invasion, occupation and war, continues to amaze us but, more importantly, continues to inspire people around the world.

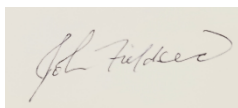

As our generation dwindles, we and other members of The Association of Jewish Refugees (AJR) are mindful that our experiences should be taught and understood and you have helped us take this collective mission to a global audience. You also provided us with the opportunity to meet one of our saviours and to be able to thank him personally for our rescue.

Featuring the story of the Kindertransport on *That's Life!* significantly helped popularise the unique history of the Kindertransport. It is our fervent hope it will never again be needed.

At the end of the second episode of *That's Life!*, you famously asked whether anyone else in the audience owes their life to Nicky. Having stood up to thank him, we are now standing up to honour you.

Thank you.

With our very best wishes

Rev. John Fieldsend
